

## **CHOICE 1**

### **Sci-Fi/Fantasy: The Kaiju Preservation Society, by John Scalzi**

#### **About The Book**

“Jamie’s dream was to hit the big time at a tech start-up. Jamie’s reality is a humiliating lay-off, then a low-wage job delivering takeout. Things look beyond grim, until a chance delivery to an old acquaintance. Tom has a vacancy on this team: the pay is great and Jamie has debts. It’s an easy choice to make.

But Tom’s animal rights organisation is way more than it seems. In an alternative dimension, massive dinosaur-like creatures roam a tropical world - but they need support to survive. And the Kaiju Preservation Society wants to help. However, others want to profit. Unless they’ve stopped the walls between worlds could fall and millions could die.”

Wonderfully witty and filled with genuine laugh-out-loud moments, this light-hearted adventure from American sci-fi writer John Scalzi is sheer nerdy escapism. Think Godzilla meets Parks and Recreation with a dash of the multi-verse thrown in for good measure! With great characters, pacy story-telling and snarky one-liners, you’ll not want to put it down.
