Bucket List Books: Fahrenheit 451, by Ray Bradbury

About The Book

“Guy Montag is a fireman. His job is to destroy the most illegal of commodities, the source of all discord and unhappiness: the printed book. Montag never questions the destruction or his own bland life, until he is shown a past where people didn’t live in fear and a present where one sees the world through ideas. Montag starts hiding books in his home. Soon they’ll make him run for his life.”

Originally published in 1953 against the backdrop of McCarthyism, this thought-provoking and iconic book is one of Ray Bradbury’s most renowned works and retains its relevance today. With themes around censorship, conformity and mass media consumption, it's an essential classic read and done to tick off your bucket list.
