Autumn Money Challenge

HARP & CROWN
CREDIT UNION LIMITED

1) A squirrel wants to collect 120 acorns before winter. If it collects 10 acorns every week, how many weeks will it take to reach its goal? _____

2) You have £60 saved and buy a new hoodie for £25, a scarf for £8 and gloves for £7. How much money do you have left? _____

3) A hedgehog collects 75 leaves to make a cosy nest but loses 18 in the autumn wind! How many leaves does it have left? _____

4) You really want a new pair of trainers costing £90, but you only have £55 saved. What would be the best thing to do?

a) Borrow the money and make sure you know how you'll repay it.
b) Save up the remaining £35 before buying them.
c) Spend the £55 on something else instead.

5) A little bird needs 48 sticks to build its nest before winter. It has already collected 19 sticks. How many more does it need? _____

6) You receive £20 pocket money each week. You decide to save 25% of it. How much will you have saved after 4 weeks? _____

7) An ant collects 12 seeds every day to prepare for winter. If it collects the same amount for 7 days, how many seeds will it have altogether?

_____

8) It's November and you want to save £45 towards Christmas presents. You have 3 weeks, how much will you save each week?_____
